VIRTUAL SECRETARY

Today's technology provides countless different possibilities, and one of them is the service of a virtual secretary. Although everything is "virtual" and the work can be done from any part of our planet, on the other hand there is always a real person who makes sure that all the work is done in the best possible way. A virtual service can be more or less complex. We distinguish between the services of a *virtual secretary* and a *virtual assistant*.

Find our non-contractual service packages below with the option to add or subtract services from month to month.
